## **Multi Use Facility – Kal Tire Place**

The facility was constructed to provide needed ice time and to be one of the premier facilities in the Greater Vernon area. One of the purposes of the facility is to attract events that otherwise would not be available for the citizens of the community to enjoy (special events). To provide a facility to host these types of events is costly and the people who attend these events, or sponsor these events, should be prepared to pay an appropriate fee to use/attend the facility.

One of the challenges is to find that balance in fees that is most beneficial to the owner, yet still affordable enough to attract events and users. The fee structure has been put together with these principles in mind. It is also important that the operators have flexibility and the authority to negotiate fees/charges for major events and the operator should be given this authority.

The other issue is to use the facility appropriately. The facility should be used for special events that cannot be accommodated in any other facility in the community. This would result in the best use of the ice time plus the most efficient use of all facilities in the community.
